you believe in angels, then you will rejoice in this thrilling collection of stories attesting to angelic intervention in human affairs. If you do not believe, you may find yourself wavering as you read true stories of intervention. This exhilarating book offers overwhelming evidence that heavenly beings are very much with us -- combating evil, bringing news, warning of danger, consoling us in our suffering. It may even help you remember a time in our own life when an angel walked beside you.

[The Don Divas: Living by Any Means Necessary, 21st Street Urban Editing, Keisha Howard](#) , 2010, 0983166900,

9780983166900. Meet five of Virginia's most well-known exotic Dancers...The Don Divas. Luscious, the "big sister" type, Chocolate, the feisty chic that doesn't hold her tongue for no one, Juicy, the diva, Golden Brown, the not so well put together one and Bay-Bay the atheist. These Ladies will do whatever it takes to make ends meet if it means setting up gangstas or hustling what their mamas gave them for a quick buck. Ride along with these ladies on their journey of deceit, heartaches and pain, ups and downs and all the grimy things that they will do to get their money by any means necessary! You will find that every dancer has a story and a reason for what they do for a living and maybe understand the "hustle" a little more. These ladies have been through it all but have persevered every obstacle that stood in their way!

[Mr. Meeson's Will, H. Rider Haggard](#) , 2001, 1587154986, 9781587154980. If Haggard, one of the greatest adventure writers of all time, is remembered now, it is for his novels featuring Allan Quatermain, a heroic adventurer whose exploits in Africa form the most important sequence of Haggard's books. Quatermain's adventures are chronicled in such novels as King Solomon's Mines, Allan Quaterman, She, and 11 others. However, despite the importance of the Quaterman books, many of Haggard's other novels are interesting in their own right. Nada the Lily is the first of four books about the Zulus, all of which are excellent. Eric Brighteyes is rich, fantasy-laden Icelandic saga. The World's Desire (written with Andrew Lang) is a fantasy about the characters in The Odyssey. And there are numerous other titles (many of them reprinted by Wildside Press as part of the Wildside Fantasy Classics series) which bring undeservingly lost Haggard books back into print. Mr. Meeson's Will is just such a book. Here we get a glimpse of what H. Rider Haggard must have gone through as a starting author, as he slyly takes the reader inside the British publishing industry, where greed and hack writers (he calls them - tame writers ) are prominent. ruthless and unscrupulous as Mr. Meeson. Luckily Haggard could call upon his years of legal training in search of the appropriate remedy for his heroine's tragic plight

[The Beckoning Fair One, Oliver Onions](#) , 2006, 0809500310, 9780809500314. The Beckoning Fair One is sometimes called the greatest ghost story in the English language; it may well be. Certainly it is one of the questest and most beautiful supernatural tales ever written. It reminds the reader of Shirley Jackson's "The Haunting of Hill House" -- and that is huge praise indeed. The story tells of British novelist Paul Oleron, who lives restlessly in cramped quarters, looking -- as writers do -- for some way not to work on the project at hand. That is when he sees a vast and beautiful old house for rent. He takes the first floor and moves in. When his friend Elsie Benbough comes to visit, weirdness begins. The house, it seems, does not like Elsie and begins to inflict minor but mean-spirited injuries upon her. Feeling the presence of something evil, she warns Oleron that he will never be able to work there. But Oleron is entranced . . . and then in love . . . and soon obsessed. . . .

The critically acclaimed laboratory standard, Methods in Enzymology, is one of the most highly respected publications in the field of biochemistry. Since 1955, each volume has been eagerly awaited, frequently consulted, and praised by researchers and reviewers alike. The series contains much material still relevant today - truly an essential publication for researchers in all fields of life sciences.

[Children of the Days: A Calendar of Human History, Eduardo Galeano](#) , 2013, 1846147662, 9781846147661. From Eduardo Galeano, one of Latin America's greatest living writers, author of the Memory of Fire trilogy, comes Children of the Days a new kind of history that shows us how to remember and how to live. This book is shaped like a calendar. Each day brings with it a story: a journey, feast or tragedy that really happened on that date, from all possible years and all corners of the world. From Abdul Kassem Ismail, the tenth-century Persian who never went anywhere without his library - all seventeen thousand books of it, on four hundred camels; to the Brazilian city of Sorocaba, which on February 8 1980 responded to the outlawing of public kissing by becoming one huge kissodrome; to July 1 2008, the day the US government decided to remove Nelson Mandela's name from its list of dangerous terrorists, Children of the Days takes aim at the pretensions of official history and illuminates moments and heroes that we have all but forgotten. Through this shimmering historical mosaic runs a common thread, one that joins humanity's darkest hours to its sweetest victories. Children of the Days is the story of our lives. Eduardo Galeano is the great master of fragments and splinters, a prince of the absurdly truthful. Children of the Days, his Calendar of Human History, is an immensely varied gathering of facts and oddments and truths and stories of every kind. Underlying them all is a passionate and humane concern for the underdog, the poor, the forgotten. How this can be so funny and at the same time so moving is a great mystery! Philip Pullman 'Bedtime stories, you remember? This is a book of stories for each day of the year, addressed to adults. Stories of the historical human venture. Each story half a page. Put it beside your bed and the bed of those you love' John Berger 'Marries meticulous journalistic detail with lyrical flair ... Comprises 365 vignettes that range from the birth of Chekhov (January 29) - "He wrote as if he were saying nothing. And he said everything" - to The Saddest Match in History (November 21). But where to start? On QI, Alan Davies might pick January 1, the first day of the year. It's where Galeano begins too, but only so his inner Stephen Fry can point out that for Mayas, Jews, Arabs, the Chinese and others, this day doesn't herald the New Year at all, before adding the optimistic kicker that given the transience of time, this day is as good as any other "to be bright and joyous as the colours of an outdoor market". Of course, like most people, I

dipped in on my birthday'Shaun Phillips, The Times'Galeano performs the sort of extraordinary feats of compassion, artistry, and imagination achieved in fiction by his fellow visionary Latin American writers, especially Borges, Garcia Mrquez, and Bolao' Booklist, starred review'Galeano's prose is nearly lulling in its lyricism' Neil Gordon, New York Times Book Review'The elegance of Galeano's words - they're just penetrating, so beautiful' San Francisco Chronicle, Danny Glover'Galeano is a superstar in the Hispanic world ... His writing is full of candour, empathy, humane concern [and] he has a wonderful eye for the quirky ... he evokes the wonders of a remarkable world that is not so bad after all'John Paul Rathbone, Financial Times'The telling of such secret histories makes it easy to see why Galeano is one of Latin America's most influential writers ... he has produced literature that will endure, monuments to the imagination'Toby Green, The Independent'Eduardo Galeano is one of Latin America's most distinguished writers. He is the author of the three-volume Memory of Fire; Open Veins of Latin America; Soccer in Sun and Shadow; The Book of Embraces; Walking Words; Upside Down; and Voices in Time. Born in Montevideo in 1940, he lived in exile in Argentina and Spain for years before returning to Uruguay. His work has been translated into twenty-eight languages. He is recipient of many international prizes.

[From Morality to Mental Health : Virtue and Vice in a Therapeutic Culture: Virtue and Vice in a Therapeutic Culture, Mike W. Martin Professor of Philosophy Chapman University](#) , 2006, 0198041470, 9780198041474. Morality and mental health are now inseparably linked in our view of character. Alcoholics are sick, yet they are punished for drunk driving. Drug addicts are criminals, but their punishment can be court ordered therapy. The line between character flaws and personality disorders has become fuzzy, with even the seven deadly sins seen as mental disorders. In addition to pathologizing wrong-doing, we also psychologize virtue; self-respect becomes self-esteem, integrity becomes psychological integration, and responsibility becomes maturity. Moral advice is now sought primarily from psychologists and therapists rather than philosophers or theologians. In this wide-ranging, accessible book, Mike W. Martin asks: are we replacing morality with therapy, in potentially confused and dangerous ways, or are we creatively integrating morality and mental health? According to him, it's a little bit of both. He surveys the ways in which morality and mental health are related, touching on practical concerns like love and work, self-respect and self-fulfillment, guilt and depression, crime and violence, and addictions. Terming this integrative development "the therapeutic trend in ethics," Martin uses examples from popular culture, various moral controversies, and draws on a line of thought that includes Plato, the Stoics, Freud, Nietzsche, and contemporary psychotherapeutic theories. Martin develops some interesting conclusions, among them that sound morality is indeed healthy, and that moral values are inevitably embedded in our conceptions of

mental health. In the end, he shows how both morality and mental health are inextricably intertwined in our pursuit of a meaningful life. This book will be of interest to philosophers, psychologists, psychiatrists, and sociologists, as well as the general reader.

[Cost of Freedom](#), [Tokiko Matsudaira](#) , 2009, 0955636760, 9780955636769. This is a history book beginning with the story of the Kamikaze pilots of Japan, who sacrificed their lives to self crash and bomb the American carriers at sea. This book discusses the many wars fought between China and Japan, or the fights that led up to the colonization of Korea, and not least of all, even describes in some detail the American Vietnam War which started in 1961. I have mentioned the letter sent from Japan concerning the use of nuclear bombs. It continues to discuss the meaning of nuclear war and for Japan, the meaning of the devastation caused by the A bombs that hit Nagasaki and Hiroshima at the end of the last great war. To this present day there is still much talk about nuclear weapons and how we try to avoid a nuclear war. It mentions two famous American Presidents who worked for the end of nuclear arms, being President Kennedy and President Reagan who held the Salt Peace Talks with Gorbachev in the 1980's. The end of the book deals with the uncertain financial age we have lived in the past and how it has returned to deliver a great depression and recession. In spite of the financial problems, we seem to return to the talk of the fear of nuclear bombs.

[Conference Skills](#), [Inns of Court School of Law](#) , 2003, 0199262314, 9780199262311. A conference with a client can be one of the most rewarding and daunting experiences for a junior practitioner. Good conference techniques can be learnt and this Manual takes a thorough and practical approach to the numerous skills which make conferences successful. Every aspect of the interview with the client is taken step-by-step from the preparatory stages to the conclusion of the conference. For example, management of the legal issues, preparation for the conference, the social and professional

skills needed to handle clients and their problems are all discussed in detail. As the conference is an opportunity to gather information and communicate advice the key skills of questioning, listening and advising are given special attention. The authors also give special attention to both professional conduct problems and relationships with the variety of client that the civil or criminal practitioner can expect to meet. This Manual is designed to be used on the Bar Vocational Course and for the early years of practice at the Bar of England and Wales, lawyers or other professionals who advise clients in the justice system will find it an invaluable aid.

[An Echo in the Bone: A Novel, Diana Gabaldon](#) , 2009, 0440338875, 9780440338871. In this new epic of imagination, time travel, and adventure, Diana Gabaldon continues the riveting story begun in Outlander. Jamie Fraser is an eighteenth-century Highlander, an ex-Jacobite traitor, and a reluctant rebel in the American Revolution. His wife, Claire Randall Fraser, is a surgeon from the twentieth century. What she knows of the future compels him to fight. What she doesn't know may kill them both. With one foot in America and one foot in Scotland, Jamie and Claire's adventure spans the Revolution, from sea battles to printshops, as their paths cross with historical figures from Benjamin Franklin to Benedict Arnold. Meanwhile, in the relative safety of the twentieth century, their daughter, Brianna, and her husband experience the unfolding drama of the Revolutionary War through Claire's letters. But the letters can't warn them of the threat that's rising out of the past to overshadow their family. Diana Gabaldon's sweeping Outlander saga reaches new heights in An Echo in the Bone. BONUS: This edition includes an excerpt from Diana Gabaldon's Written in My Own Heart's Blood.

[History of the Swiss Watch Industry: From Jacques David to Nicolas Hayek, Pierre-Yves Donz](#) , 2012, 3034312350, 9783034312356. This book tackles the history of the Swiss watch industry in a global Kingdom, the USA and Japan. The author demonstrates how Swiss watchmakers succeeded in facing various challenges: the industrialization of production

at the end of the 19th century, the delocalization of production in the interwar years and globalization since the 1960's. These challenges helped Switzerland to maintain and strengthen its position as a leader on the world market. This study shows how innovation and new technologies, the industrial policy of the Swiss authorities, the industrial district organization and the relations with trade unions explain the worldwide success of the Swiss watch industry.

[The Barbosa Legacy, Roa Lynn](#) , 2012, 0983019754, 9780983019756. Alexandre Barbosa is the scion of a wealthy Brazilian family that lives grandly and gambles for high stakes. His father has just lost the family's vast coffee plantation in a poker game. But the loss of his patrimony isn't Alexandre's most serious problem. He feels honor-bound, even at the risk of his life, to take an active part in opposing the military dictatorship that has ruled Brazil for five years. His patriotism comes into conflict with everything he has planned for his future. In 1969, while still a university student in Rio de Janeiro studying to become an architect, he joins the Armed Resistance. As the result of their militant activities, he and his lover Monica, a fellow architecture student, jeopardize their careers and their commitments to each other as their lives take dangerous and surprising turns in Brazil, Chile and the United States.

[Modernism: A Guide to European Literature, 1890-1930, Malcolm Bradbury, James Walter McFarlane](#) , 1976, 0140138323, 9780140138320. The period 1890-1930 produced literature that still feels contemporary and few movements can boast such an international wealth of innovative writers - Apollinaire, Brecht, Joyce, Kafka, Strindberg, Woolf and Yeats among many others. This now classic survey explores the ideas, the groupings and the social tensions

that shaped this transformation, as well as the literature itself, and identifies the elements of shock and crisis central to Modernist style. Appropriately, the contributors display a stimulating variety of critical approaches and methods resulting in some of the most exciting and scholarly criticism yet written on Modernism.

[Overcoming Evil: Genocide, Violent Conflict, and Terrorism, Ervin Staub](#) , 2011, 0195382048, 9780195382044.

"Overcoming Evil describes the origins or influences leading to genocide, violent conflict and terrorism. It identifies principles and practices of prevention, and of reconciliation between groups after violence, or before violence thereby to prevent violence. It uses both past cases such as the Holocaust, and contemporary ones such as Rwanda, the Congo, the Israeli-Palestinian conflict, contemporary terrorism, and the relations between the Dutch and Muslim minorities, which also has relevance to other European countries, as examples. The book draws on the author's previous work on all these issues, as well as on research in genocide studies, the study of conflict and of terrorism, and psychological research on group relations. It also describes the work of the author and his associates in real world settings, such as promoting reconciliation in Rwanda, Burundi and the Congo. The book considers what needs to be done to prevent impending or stop ongoing violence. It emphasizes early prevention, when violence generating conditions are present and a psychological and social evolution toward violence has begun, but not yet immediate danger of intense violence. The book considers the role of difficult social or life conditions, repression, culture, the institutions or structure of society, the psychology of individuals and groups, and the behavior of witnesses or bystanders within and outside societies. It emphasizes psychological processes, such as differentiation between us and them and devaluation of the "other," past victimization and psychological woundedness, the power of ideas and people's commitment to destructive ideologies. It considers humanizing the other, healing from past victimization, the creation of constructive ideologies and groups and how these help people develop cultures and institutions that make violence less likely. The book asks what needs to be accomplished to prevent violence, how it can be done, and who can do it. It aims to promote knowledge, understanding, and "active bystandership" by leaders and government officials, members of the media and citizens to prevent violence and create harmonious societies"--

[Children's Book of Classic Catholic Prayers, Robert F. Morneau](#) , 2000, 0809166666, 9780809166664. Here are the best-loved Catholic prayers in a collection made contemporary and fresh with all-new illustrations that both delight the eye while suggesting new meanings for old favorites. With Bishop Robert Morneau as editor, parents and teachers alike can be reassured this is a trustworthy source of enduring Catholic beliefs. The book is a perfect choice to help children aged four to ten learn their prayers, whether they listen as an adult or older child reads to them, or whether they are beginning to read on their own.

[Reading Khaled Hosseini, Rebecca Stuhr](#) , 2009, 0313355118, 9780313355110. One of the most important emerging novelists today, Khaled Hosseini has enjoyed critical success and popular accolades. His first book, "The Kite Runner," was voted Reading Group Book of the Year in 2006 and 2007 and was made into a major motion picture. His second book, "A Thousand Splendid Suns," seems destined to follow the same path. Written for book club members and students, this guide overviews Hosseini's works, themes, characters, and contexts and relates his fiction to current events and popular culture. Sidebars present interesting information, and chapters contain questions to stimulate book club discussions and student research. The volume closes with a selected, general bibliography of print and electronic resources. The book begins with a glance at Hosseini's life and his use of the novel form. It then looks at his novels, summarizing their plots and discussing his characters, themes, and contexts. The book gives close attention to his handling of current events in his works, and to the presence of his fiction in popular culture. Chapters include sidebars of interesting information, along with discussion questions designed to promote book club discussion and student research.

[Isabel of the Whales, Hester Velmans](#) , 2008, 030753300X, 9780307533005. Eleven-year-old Isabel is a plain old girl living in Provincetown, Massachusetts, who believes that she is destined to accomplish something special. When her fifth-grade class goes on a whale-watch field trip, something amazing happens: Dozens of different species of whales surround the boat, bumping the deck and sending Isabel flying into the ocean. Isabel is shocked to hear the whales speaking to her she is a mermaid, they tell her, a Chosen One who has the ability to turn from a human into a whale and back again. She is destined to live among the whales long enough to learn their ways, and teach them about the human world. Living among her pod is fun, at first, but Isabel has an important mission. She will change the whales future forever, and learn a lot about herself in the process. From the Hardcover edition.

[Guide to Research Techniques in Neuroscience, Matt Carter, Jennifer Shieh](#) , 2009, 0080951740, 9780080951744.

Neuroscience is by definition a multidisciplinary field: some scientists study genes and proteins at the molecular level

while others study neural circuitry. A single topic such as the auditory system can be studied using techniques from genetics, imaging, biochemistry, or electrophysiology. A young scientist must learn how to read the primary literature and then develop their own experiments. This book offers that scientist an overview of mainstream research techniques, provides guidelines on how to choose one technique over another, offers tips on analyzing data, and provides a list of references for additional detailed study. This book can also assist an experienced scientist understand published studies conducted outside their own subfield.\*Written by Stanford University graduate students in neuroscience to provide a "hands-on" approach for other neuroscience graduate students \*Techniques within one field will be compared so that user can select best technique for their experiment \*Chapters include references (key articles, books, protocols) for additional detailed study \*Data Analysis boxes in each chapter help with data interpretation and offer guidelines on how best to represent results \*"Walk-through" boxes guide students through the experiment step-by-step

[The Prometheus Deception, Robert Ludlum](#) , 2007, 1429906669, 9781429906661. Robert Ludlum is the acknowledged master of suspense and international intrigue. For over thirty years, in over twenty international bestsellers, he has set a standard that has never been equaled. Now, with the Prometheus Deception, he proves that he is at the very pinnacle of his craft. Nicholas Bryson spent years as a deep cover operative for the American secret intelligence group, the Directorate. After critical undercover mission went horribly wrong, Bryson was retired to a new identity. Years later, his closely held cover is cracked and Bryson learns that the Directorate was not what it claimed - that he was a pawn in a complex scheme against his own country's interests. Now, it has become increasingly clear that the shadowy Directorate is headed for some dangerous endgame - but no one knows precisely who they are and what they are planning. With Bryson their only possible asset, the director of the CIA recruits Bryson to find, reinfiltate, and stop the Directorate. But after years on the sidelines, Bryson's field skills are rusty, his contacts unreliable, and his instincts suspect. With everything he thought he knew about his own life in question, Bryson is all alone in a wilderness of mirrors - unsure what is and isn't true and who, if anyone, he can trust - with the future of millions in the balance.

Earn Big Business Profits on Facebook \* Practical, specific, proven, and revenue-oriented! \* Packed with real-world lessons you can use right now Here's your complete, start-to-finish plan for making money on Facebook! Brian Carter offers step-by-step techniques and practical lessons drawn from his 11 years of experience helping companies double and triple their revenue online. This revenue-focused book is packed with up-to-date ideas and proven solutions with all the details you need to execute crisply, avoid costly mistakes, and reap big profits. You'll learn how to identify your best Facebook profit opportunities...craft Facebook programs that reflect your unique offerings, brands, and customers...use Facebook to supercharge your existing marketing programs...attract super-affordable targeted clicks and fans with Facebook ads...repel negative "brand-bashers."...increase visibility...deepen your customer interactions...translate "community" into cash! Your customers aren't just "on" Facebook: Nowadays, that's where they're most engaged. That's where you need to reach them. Marketing on Facebook is no longer optional--but the field is cluttered with hype, foolishness, and "fake" solutions that don't deliver results. This book gives you what you really need: a complete, proven, step-by-step plan for maximizing your ROI on Facebook. Building on techniques he's used to help dozens of companies supercharge their online revenues, Brian Carter delivers up-to-the minute, ground-level solutions that work. The devil's in the details, so Carter gives you all the specifics you need to implement these strategies quickly and cost-effectively. Whether you're an entrepreneur, marketer, or social marketing specialist, this book will help you attract more visitors and fans at lower cost...convert more visitors into profitable buyers...repel "brand-bashers" and encourage positive, productive posts...continually measure and optimize your performance...transform your Facebook presence from an experiment into a robust, highly profitable market channel. \* Leverage the five most direct routes to Facebook profits Construct your most powerful Facebook marketing mix \* Transform FaceLookers into FaceBuyers Master the 13 best Facebook sales and influence techniques \* Avoid six missteps that destroy Facebook marketing programs Learn from the pioneers' costly mistakes \* Achieve non-revenue goals while you're earning bigger profits Gain branding and positioning benefits at the same time as you're building sales

[Thought-Contents: On the Ontology of Belief and the Semantics of Belief Attribution, Steven E. Bor](#) , 2006, 1402050852, 9781402050855. This book provides a formal ontology of senses and the belief-relation that grounds the distinction between de dicto, de re, and de se beliefs as well as the opacity of belief reports. According to this ontology, the relata of the belief-relation are an agent and a special sort of object-dependent sense (a 'thought-content'), the latter being an 'abstract' property encoding various syntactic and semantic constraints on sentences of a language of thought. One bears the belief-relation to a thought-content T just in case one (is disposed as one who) inwardly affirms a certain sentence S of one's language of thought that satisfies what T encodes, which in turn requires that S's non-logical parts stand in appropriate semantical relations to items specified by T. Since these items may include other senses as well as ordinary objects, beliefs of arbitrary complexity are automatically accommodated. Within the framework of the formal ontology, a

context-dependent compositional semantics is then provided for a fragment of regimented English capable of formulating ascriptions of belief semantics that treats substitutional opacity as a genuine semantic datum. Finally, the resulting picture of belief and its attribution is defended by showing how it solves standard puzzles, avoids objections to rival accounts, and satisfies certain adequacy conditions not fulfilled by traditional theories. Along the way, clarification and defense is offered for the ingredient conception of object-dependent senses, and it is shown how adoption of the language of thought hypothesis permits Bertrand Russell's obscure doctrine of logical forms to be understood in a way that not only vindicates his Multiple Relation theory of de re belief but also reveals the connection between these logical forms and thought-contents.

[Research Design Explained, Mitchell](#) , 1995, .

[Calder at home: the joyous environment of Alexander Calder, Pedro E. Guerrero](#) , 1998, . Known the world over for his creation of the mobile, Calder (1898-1976) was the son and grandson of sculptors - Alexander Stirling Calder and Alexander Milne Calder; his mother, Nanette, was a portrait painter. Living in the avant-garde atmosphere of Paris in the mid-1920s helped transform Calder's early genius in making objects from bent wire into a lifelong interest in sculpture that moved. From his famous Circus of 1926-30, to his mobiles and stabiles, to colorful gouaches, textiles, toys, forks and spoons, and even a fleet of airplanes, everything Calder created was imbued with fun and intelligence. An album of a joyous, creative household, Calder at Home shows how Calder extended his unbounded creativity and enthusiasm to every corner of his existence, from living room hearth to dining table, from kitchen to bathroom, from studio ceiling to studio floor. And things that would not fit indoors tumbled outside to enliven nature with his lasting vision. Guerrero's photographs capture the Calder's exotic surroundings - created with the same imagination and playfulness of the sculptor's work - while the entertaining story of his close relationship with Calder adds new dimensions to this internationally renowned artist.

[Runner, Thomas Perry](#) , 2010, 1849161569, 9781849161565. Jane Whitefield is a fiercely intelligent, wildly resourceful Native American woman. For ten years, she worked in a most unusual profession, helping people escape from their enemies and become runners, for whom she created new identities. Until she got married and promised her new husband, a surgeon in Amherst, New York, that she would give up her job and settle for a quieter, less dangerous life.

But when a bomb explodes in the middle of a hospital fundraiser, Jane finds herself face to face with the cause of the explosion: a young girl, who's pregnant and has been tracked across the country by a team of hired assassins. That night, regardless of the vow she made to her husband, Jane has to revisit old skills and old contacts. Saving one last victim is going to send Jane off on a mission that could be a rescue operation - or a chance for revenge.

[3 Pies Hot!, Robert P. Welsh](#) , 1993, 0963763903, 9780963763907. THREE PIES HOT is the business biography of a regional pizza restaurant chain. The Great Race Pizza Shoppes sought national dominance to dictate the standards in the pizza delivery industry. This entertaining narrative lays bare the inside operations of the pizza delivery business as it chronicles the successes & failures of a hardy band of inept entrepreneurs. This book will appeal to everyone in the restaurant business & should be must reading to anyone contemplating entering the business. As told by one of the founders, the author weaves the "how to" of operations with a chain of humorous anecdotes & underlying drama as these pizza men commit every business error imaginable. The author has taken what would otherwise be an undiscovered & forgotten footnote in Ohio business history & brought it back to life. The history of the company is traced as it mushrooms into seven cities before going bust. In their ten year history these entrepreneurs battled against asbestos, unions, practical jokers, & themselves while occasionally taking a few swipes at the competition. There are many "how to" books on the market. Now, there is a "what not to do" book to supplement every business library.

[From New Lanark to Mound Bayou: Owenism in the Mississippi Delta, Joel Nathan Rosen](#) , 2011, 1594605319,

9781594605314. *From New Lanark to Mound Bayou* re-examines the claims that a theoretical and ideological relationship existed between the Scottish manufacturer/reformer Robert Owen and the Mississippi planter Joseph E. Davis, whose former bondsmen later settled the postbellum Mississippi community of Mound Bayou in 1887. Drawing upon existing data as well as new documentation, this work provides an overview of Owenism followed by an outline of Owen's communities in both Scotland and the United States. These examinations of Owen's societies show the influence of his ideas on the Mississippi communities at Davis Bend as well as that of Mound Bayou, the Delta's first entirely African-American town, founded by one of Davis' former slaves. This book examines the many questions left by the adaptations of Owenite thought in Davis' reconfiguration of the slave community at Davis Bend. The book also considers the carryovers from this endeavor at Mound Bayou. Rosen specifically addresses the ways a redefined Owenism, originally designed to reform ruthless labor practices, ultimately enables Davis to construct a more talented and versatile slave workforce that propels him to enviable economic heights. These transformations of Owen's so-called Utopian scheme further inform the accomplishments of the two most immediate beneficiaries of Davis' refined Owenism: the former Davis Bend slave Benjamin T. Montgomery, who took over the Davis holdings in the aftermath of the Civil War; and his son Isaiah T. Montgomery, who co-founded and ultimately presided over Mound Bayou's earliest years. *From New Lanark to Mound Bayou* has cross-discipline appeal for those with interests in sociology, history, and economics, as well as American- and African-American studies, Southern studies, communitarian studies, and political theory.

[Jackson Jones: The Tale of a Boy, an Elf, and a Very Stinky Fish, Jennifer Kelly](#) , 2011, 1458731596, 9781458731593.

When family reunion day arrives, Jackson, a lonely ten-and-a-half-year-old boy, is loathe to share his room with Great Aunt Harriet. She's a hundred and twelve years old, talks unintelligibly out of her toothless mouth, and has very, very, very big hair. But when he falls into her piles of hair during the night, Jackson encounters a world he'd never dreamed existed. In this magical fantasy complemented by zany illustrations, Jackson meets a host of extraordinary characters and finds that his life, far from being average and uneventful, is being written by the great Author, in whom all stories find their meaning.

[Improving quality and safety: progress in implementing clinical governance in primary care, lessons for the new primary care trusts, Great Britain: National Audit Office](#) , 2007, 010294380X, 9780102943801. Primary Care Trusts (PCTs) are responsible at the local NHS level for the statutory "duty of care", largely through implementing clinical governance. The concept of clinical governance aims to improve continuously the overall standard of clinical care; reduce variations in outcomes of, and access to, services; and ensure that local decisions are based on the most up to date evidence of what is known to be effective. The key principles of clinical governance are: a coherent approach to quality improvement, clear lines of accountability for clinical quality systems and effective processes for identifying and managing risk and addressing poor performance. Clinical governance, implemented effectively, can provide PCT Chief Executives with assurance that healthcare, whether provided directly or commissioned from other providers, is both safe and of good quality. This report finds that the organisational structures and processes for clinical governance have largely been put in place at PCT level. But progress in implementing the different components of clinical governance varies both within and between PCTs. More needs to be done to provide assurance about the performance of General Practitioners and the systems which protect the safety of patients. Key features of those PCTs that can demonstrate consistent improvements in quality include effective clinical leadership, maintaining the capacity to deliver services, ensuring the quality of the patient experience and improving services based on lessons from complaints and patient safety incidents. The higher performing PCTs are characterised by: availability and accessibility of information to support evidence-based medicine; all staff appraised against an agreed work and development programme; service users involved in service development; clear action plans developed in response to clinical risks; and underperformance by clinical staff addressed by clear management procedures.

[Extreme Thought Makeover: 37 Days to Maximum Life, Rick Schaefer](#) , 2010, 0984388303, 9780984388301. Simply masterful-some of the best teaching anywhere! Dr. Rick has assembled ideas and practices to use on a daily basis that are fun, simple and easy to do, which in a short period of time-just 37 days-ignite an internal transformation in the user that is amazing and life changing! Anyone interested in taking steps toward a happier, more fulfilling life can benefit from Extreme Thought Makeover . Seasoned students of the power of thought who take daily action will feel a sense of fulfillment in enhancing their personal power; beginners will delight in seeing how quickly improved conditions show up through harnessing the power of directed thinking. The only requirement for anyone is simply ... to say Yes! There is no way you can go through this 37 Day Program and not be affected. Somehow, some way, there will be an exercise that touches you, helps you, expands you, and takes you to a place of greater joy from which you can never return! The amazing thing here is that there are some absolutely brilliant lessons tucked inside this program that can lead you to weight loss, nutrition, fitness, and even recovery from serious disease. It goes way beyond prevention or cure, it deals with the root cause of disease. That lesson alone is priceless. This program is a masterful culmination of the best wisdom from modern day inspirational teachers and guides, and from great Masters from the past, and adds the wisdom, creativity and playfulness of its creator, Dr. Rick. Rick Schaefer, M.D., is an established author and is the creator of Extreme Thought Makeover ... 37 Days to Maximum Life! He has a life coaching practice, teaching from the principles in his program. Rick also has 19 years experience as a physician in the operating room and running a pain clinic, and 14 years experience studying personal development, success, and the Law of Attraction. He now works at the intersection of those two fields by helping people at the root cause of disease ... their thinking. He is the father of three, and makes his home in Milwaukee, Wisconsin, at the shore of Lake Michigan. He can be heard regularly on WISN Radio 1130 AM in Milwaukee. He has been President of the Anesthesia Society, has taught at the Medical College of Wisconsin, has been

featured in the Wall Street Journal and on National Public Radio, and has been a featured speaker at regional and national success seminars. He has also appeared on the Lifetime TV Network's "The Balancing Act."

[Trail of the Apache and Other Stories, Elmore Leonard](#) , 2009, 0061981052, 9780061981050. Destiny, restlessness, and greed moved the white man west, into lands occupied for centuries by a proud and noble people: Arapahoe, Navajo, Apache, Sioux. The bitter misunderstandings and brutal clashes of cultures that resulted ultimately shaped the nation we know today. In seven classic western tales, the New York Times-bestselling Grand Master re-creates a world of violence, deception, vengeance, and strange beauty with the same peerless storytelling power that distinguishes his acclaimed suspense fiction.

[Sun Dance, Water Dance,](#) , 2001, 0525466827, 9780525466826. In this dreamy ode to summer, a group of friends spends a carefree day enjoying the great outdoors. This book captures the pleasures of plunging into snowmelt water after baking in the sun, walking barefoot, having picnics in the shade of a willow tree, and sleeping out under the stars. With paintings that range from cool, watery green to hot, sunny yellow, Greg Couch beautifully evokes the delicious sensations in the lyrical poem by award-winning author Jonathan London.

[X-Men Legacy Volume 3: Revenants \(Marvel Now\), , ,](#) , 2013, 0785167196, 9780785167198. David Haller has slowly begun to accept the death of his father, Charles Xavier - but that doesn't mean he's forgiven his father's murderer. David tracks down Cyclops to give him a piece of his mind, a demonstration of his prodigious powers - and an ice-cold platter of revenge. When an unstable, omnipotent youth faces off against the leader of the mutant revolution, anything can happen - and the world may never be the same! COLLECTING: X-Men Legacy 13-18. Also includes exclusive AR video content!

[Essays in Science and Philosophy, Alfred North Whitehead](#) , 1968, 0837102685, 9780837102689. The first three chapters are personal history, highly picturesque and amusing, illumined by flashes of his lively humor....From here the chapters go on into Philosophy, Education, and Science. covering a span of thirty years though these writings do, they are

surprisingly unified. Atlantic

[Evidence from the Financial Secretary on the Stability and Growth Pact and the European Central Bank, Report with Evidence, 14th Report of Session: House of Lords Papers 2003-04, 88, Great Britain. Parliament. House of Lords. European Union Committee, Great Britain. Treasury](#) , 2004, 0104004517, 9780104004517. This report and evidence contains responses from the Financial Secretary on the Stability and Growth Pact Developments and the European Central Bank before the European Union Committee. Among the Committee's recommendations are that: the Commission and the European Council should resolve the uncertainty surrounding the Stability and Growth Pact, and that the Government should take an active role in the proposals for reform of both the Pact and the European Central Bank.

[Pathways to Recovery: Sources and Spiritual Tools for a Jewish Twelve Step Program, Yaacov Jeffrey Kravitz](#) , 2009, 0981579639, 9780981579634. Pathways to Recovery is an indispensable resource for anyone trying to work a 12 Step program in an authentically Jewish fashion. Pathways was fashioned from the ongoing dialogue which occurred during six years of a support group for Jews in 12 Step programs. Each chapter provides relevant insights into the spiritual dimension of the steps, related Jewish sources, and spiritual exercises for working the steps. Guidelines for starting your own support group will make this book a valuable reference for clergy, mental health professionals or anyone seeking to start their own support groups. Pathways to Recovery has helped people in recovery since its first limited edition in 1999, and now it will help you find your pathway too..

[Marx and Freud in Latin America: Politics, Psychoanalysis, and Religion in Times of Terror, Bruno Bosteels](#) , 2012, 1844678474, 9781844678471. This book assesses the untimely relevance of Marx and Freud for Latin America, thinkers alien to the region who became an inspiration to its beleaguered activists, intellectuals, writers and artists during times of political and cultural oppression. Bruno Bosteels presents ten case studies arguing that art and literature the novel, poetry,

theatre, film more than any militant tract or theoretical essay, can give us a glimpse into Marxism and psychoanalysis, not so much as sciences of history or of the unconscious, respectively, but rather as two intricately related modes of understanding the formation of subjectivity.

[Swastika, Michael Slade](#) , 2005, 0143053256, 9780143053255. Modern crimes throughout North America earmarked by the use of a swastika bring to light a long-term Nazi conspiracy that is also linked to the secret of what crashed in Roswell in 1947.

[The Lost Chronicles of Alexander the Great, Steve Stylianou](#) , 2007, 0979200806, 9780979200809. From the wreckage of the Alexandria library was saved an ancient scroll scribed by Ptolemy, one of Alexander's famed generals. This text is an adaptation of that scroll. The Lost Chronicles of Alexander the Great is a modern day account of the history and marvel that surrounded Alexander's life mixed with a spice of fiction. Through these pages, you will not only know Alexander, but also understand the king who is more legend than history.

[Witness the Night, Kishwar Desai](#) , 2012, 0143120972, 9780143120971. Winner of the Costa First Novel Award--a dazzling mystery that takes readers into the heart of India. In a small town in northern India, a house still smolders from a devastating fire. Inside a young girl is found severely beaten and barely alive, along with the lifeless bodies of thirteen people. Inexplicably, the local police accuse the girl of the murders. But Simran Singh, an independent-minded, unconventional social worker, is convinced of the girl's innocence. As Simran goes against the authorities to seek out the truth, she discovers a terrifying web of deceit that will change her forever. Seamlessly weaving themes of sexism, police corruption, and infanticide, this captivating mystery plunges readers into the thrilling heart of modern India.

[A Clinical Trials Manual From The Duke Clinical Research Institute: Lessons from a Horse Named Jim, Margaret Liu, Kate Davis](#) , 2011, 1444357883, 9781444357882. "The publication of the second edition of this manual comes at an important juncture in the history of clinical research. As advances in information technology make it possible to link individuals and groups in diverse locations in jointly seeking the answers to pressing global health problems, it is critically important to remain vigilant about moral and ethical safeguards for every patient enrolled in a trial. Those who study this manual will be well aware of how to ensure patient safety along with fiscal responsibility, trial efficiency, and research integrity." Robert Harrington, Professor of Medicine, Director, Duke Clinical Research Institute, Durham, North Carolina, USA. The Duke Clinical Research Institute (DCRI) is one of the world's leading academic clinical research organizations; its mission is to develop and share knowledge that improves the care of patients around the world through innovative clinical research. This concise handbook provides a practical "nuts and bolts" approach to the process of conducting clinical trials, identifying methods and techniques that can be replicated at other institutions and medical practices. Designed for investigators, research coordinators, CRO personnel, students, and others who have a desire to learn about clinical trials, this manual begins with an overview of the historical framework of clinical research, and leads

the reader through a discussion of safety concerns and resulting regulations. Topics include Good Clinical Practice, informed consent, management of subject safety and data, as well as monitoring and reporting adverse events. Updated to reflect recent regulatory and clinical developments, the manual reviews the conduct of clinical trials research in an increasingly global context. This new edition has been further expanded to include: In-depth information on conducting clinical trials of medical devices and biologics The role and responsibilities of Institutional Review Boards, and Recent developments regarding subject privacy concerns and regulations. Ethical documents such as the Belmont Report and the Declaration of Helsinki are reviewed in relation to all aspects of clinical research, with a discussion of how researchers should apply the principles outlined in these important documents. This graphically appealing and eminently readable manual also provides sample forms and worksheets to facilitate data management and regulatory record retention; these can be modified and adapted for use at investigative sites.

[The cry of the deer, David Adam](#) , 1987, 0819214426, 9780819214423. Based on the Hymn of St. Patrick, also known as "The Deers Cry, " these meditations help readers experience faith as a vital, living relationship with God.

[Totally JTT, Michael-Anne Johns](#) , 1995, 067156272X, 9780671562724. He's the number one teen star of the number one family sitcom on TV, "Home Improvement" and the voice - and face - of young Simba, the "mane" event in the blockbuster movie and bestselling video in history, Disney's "The Lion King." He brought in the crowds to "Man of the House" and stars in "Tom and Huck" and a live-action "Pinocchio" But who's the person behind the star? What's he "really" like? How does it feel having Tim Allen as a mentor? Follow JTT backstage on the "Home Improvement" set ...join him on location on his newest films. Discover Jonathan's private off-camera world and learn why he's happiest doing the charity work he loves. Everything you want to know is here, in JONATHAN TAYLOR THOMAS: TOTALLY JTT!

[Finite Difference Schemes and Partial Differential Equations, John Strikwerda](#) , 2007, 089871639X, 9780898716399. This book provides a unified and accessible introduction to the basic theory of finite difference schemes applied to the numerical solution of partial differential equations. Originally published in 1989, its objective remains to clearly present the basic methods necessary to perform finite difference schemes and to understand the theory underlying these schemes. This is one of the few texts in the field to not only present the theory of stability in a rigorous and clear manner but also to discuss the theory of initial-boundary value problems in relation to finite difference schemes. In this updated edition the notion of a stability domain is now included in the definition of stability and is more prevalent throughout the book. The author has also added many new figures and tables to clarify important concepts and illustrate the properties of finite difference schemes.

[Intracellular Delivery: Fundamentals and Applications, ISSN 1559-7083, ISSN 1559-7083, Ale Prokop](#) , 2011,

9400712480, 9789400712485. This book features a special subsection of Nanomedicine, an application of nanotechnology to achieve breakthroughs in healthcare. It exploits the improved and often novel physical, chemical and biological properties of materials only existent at the nanometer scale. As a consequence of small scale, nanosystems in most cases are efficiently uptaken by cells and appear to act at the intracellular level. Nanotechnology has the potential to improve diagnosis, treatment and follow-up of diseases, and includes targeted drug delivery and regenerative medicine; it creates new tools and methods that impact significantly upon existing conservative practices. This volume is a collection of authoritative reviews. In the introductory section we define the field (intracellular delivery). Then, the fundamental routes of nanodelivery devices, cellular uptake, types of delivery devices, particularly in terms of localized cellular delivery, both for small drug molecules, macromolecular drugs and genes; at the academic and applied levels, are covered. The following section is dedicated to enhancing delivery via special targeting motifs followed by the introduction of different types of intracellular nanodelivery devices (e.g. a brief description of their chemistry) and ways of producing these different devices. Finally, we put special emphasis on particular disease states and on other biomedical applications, whilst diagnostic and sensing issues are also included. Intracellular delivery / therapy is a highly topical which will stir great interest. Intracellular delivery enables much more efficient drug delivery since the impact (on different organelles and sites) is intracellular as the drug is not supplied externally within the blood stream. There is great potential for targeted delivery with improved localized delivery and efficacy.

[The Collapse of Communism in the Soviet Union, William E. Watson](#) , 2002, 0313324166, 9780313324161. Designed for student research, this one-stop resource contains a wealth of information, reference material, and analysis of the collapse of communism in the Soviet Union. Combining narrative description, analytical essays, lengthy biographical profiles, and the text of key primary documents, Watson examines the reasons for the decline and fall of the Soviet Union and its

ruling Communist party in 1991. Five essays provide a historical overview of the rise and fall of the Soviet brand of communism; the evolution of Gorbachev's perestroika reform policies; the costly Soviet imperial legacy and the ten-year Afghan war; nationalism and the dissolution of Soviet unity; and post-Soviet Russia under the leadership of Boris Yeltsin. Ready-reference features include: a timeline of key events; biographical profiles of 15 leaders involved in the decline and fall of Soviet communism; the text of 22 documents including writings by Gorbachev, Yeltsin and other key figures; a glossary of terms; and an annotated bibliography of print and video materials. Photos and maps complement the text.

[One Day on Beetle Rock, Sally Carrighar](#) , 1944, 1890771538, 9781890771539. Cultural Writing. Nature. Foreword by David Rains Wallace. Illustrations by Carl Dennis Buell. An elegant and lively depiction of nine animals spending a spring day on Beetle Rock, a large expanse of granite in Sequoia National Park, ONE DAY ON BEETLE ROCK is a classic of American nature writing. Drawing on seven years of close observation and inspired by the work of natural scientists, Sally Carrighar wrote with exquisite detail, bringing readers to an exhilarating consciousness of the search for food and a safe place to sleep, the relationship between prey and predator, the marvelous skills and adaptations of nature. "ONE DAY ON BEETLE ROCK is one of the small, fine company of books that are not merely popular animal stories, or merely scientific studies of animals, but animal literature"--Saturday Review of Literature. B&W illustrations.

[Advanced Techniques in Diagnostic Microbiology, Yi-Wei Tang, Charles W. Stratton](#) , 2012, 1461439701, 9781461439707. In the United States, hospitals annually report over 5 million cases of infectious-disease-related illnesses: clinical microbiology laboratories in these hospitals are engaged in detecting and identifying the pathogenic microorganisms in clinical specimens collected from these patients with suspected infections. Clearly, the timely and accurate detection/identification of these microbial pathogens is critical for patient treatment decisions and outcomes for millions of patients each year. Despite an appreciation that the outcome of an infectious-disease-related illness is directly related to the time required to detect and identify a microbial pathogen, clinical microbiology laboratories in the United States as well as worldwide have long been hampered by traditional culture-based assays, which may require prolonged incubation time for slowly growing microorganisms such as Mycobacterium tuberculosis. Moreover, traditional culture-based assays often require multiple steps with additional time needed for discernment of species and/or detection of antimicrobial resistance. Finally, these traditional, slow multistep culture-based assays are labor-intensive and required

skilled clinical microbiologists at the bench. Over the past several decades, advanced molecular techniques in diagnostic microbiology quietly have been revolutionizing the practice of clinical microbiology in the hospital setting. Indeed, molecular diagnostic testing in general and nucleic-acid-based amplification methods in particular have been heralded as diagnostic tools for the new millennium. There is no question that the development of rapid molecular techniques for nucleic acid amplification/characterization combined with automation and user-friendly software has greatly broadened the diagnostic capabilities of the clinical microbiology laboratory. These technical advances in molecular microbiology over the first decade of the 21st Century have profoundly influenced the physical structure of clinical microbiology laboratories as well as their staffing patterns, workflow, and turnaround time. These molecular microbiology advances have also resulted in the need for a revised and updated second edition of *Advanced Techniques in Diagnostic Microbiology*. This second edition again provides an updated and comprehensive description of the ongoing evolution of molecular methods for the diagnosis of infectious diseases. In addition, many new chapters have been added, including a chapter on the clinical interpretation and relevance of advanced technique results. The second edition, like the first edition, includes both a techniques section describing the latest molecular techniques and an applications section describing how these advanced molecular techniques are being used in the clinical setting. Finally, the second edition, like the first edition, utilizes a diverse team of authors who have compiled chapters that provide the reader with comprehensive and useable information on advanced molecular microbiology techniques.

[Hamish Fulton: An Object Cannot Compete with an Experience, Hamish Fulton](#) , 2001, 0946009384, 9780946009381.

Hamish Fulton emerged onto the late 1960s art scene as part of a generation of young British artists engaged with extending the possibilities of sculpture. Fulton describes himself as a walking artist, making literal walks in locations as varied as Japan, Italy and Iceland, with a sculptural, photographic and conceptual approach to his art.

[My Old Man and the Sea, David Hays](#) , 1996, 0060976969, 9780060976965. Some fathers and sons go fishing together. Some play ball. David Hays and Daniel Hays sailed 17,000 miles through the world's most feared and fabled waters in a little boat they built together. This is their story. Alone with nothing but the mammoth waves of the Southern Ocean, the unceasing wind, a compass, a sextant and a pet cat, they voyage down the Caribbean, through the Panama Canal, past the Galapagos Islands, beyond Easter Island and around their destination--Cape Horn. Father and son narrate in alternating fashion, their voices weaving together an engrossing story of travel, exploration and difficult, dangerous sailing. But more than a tale of adventure, this is a touching account of a father and son's rite of passage as they assess their complex and evolving relationship. Daniel, out of college and unsure of what he wants in his life, sees his father getting older, more forgetful. David deals with unresolved issues he had with his own father, fearful that he'll make the same mistakes with his son, yet frustrated that Daniel treats him like an old man. Moving, often hilarious, often poignant, *My Old Man and the Sea* is a rich and profound chronicle of their voyage of discovery. Every reader will identify with this

uplifting story of a father and son who go down to the sea and find each other.

[The World As We Know It, Joseph Monninger](#) , 2011, 1451606389, 9781451606386. A lifetime of friendship begins the day brothers Ed and Allard save Sarah from drowning in an icy river near their rural New Hampshire home. Though their paths diverge through the years, the connection between the three endures until a heartbreaking tragedy in the remote mountains of Wyoming forces Sarah and Allard to confront the unthinkable. In their grief, they find themselves on separate journeys that test the enduring bonds of their relationship and times unremitting power to heal. Poignant and transformative, The World as We Know It is subtle and heartrending a love story of friendship, nature, and the surprising twists that can alter our destinies forever.

[The Last Lincolns: The Rise and Fall of a Great American Family, Charles Lachman](#) , 2010, 1402771215, 9781402771217.

Most books about Abraham Lincoln end with his assassination. That's the day this book begins. The Last Lincolns tells the largely unknown tale of the family's fall from grace in the years and generations following the president's murder. The story rife with insanity, floods, fires, alcohol abuse, and squandered fortunes is brought right up to what may be the last generation of Lincoln descendants, providing an unforgettable glimpse into the personal legacy left by the man who could unite a nation, but not his own family. Plus: this beautiful new paperback edition includes a family tree.

[Both Sides of the Bar, Tony Hackett](#) , 2004, 0954785304, 9780954785307. The 1960s, '70s and '80s saw many changes in the licensed trade. The days of family run breweries, large and small, were numbered. Many small breweries merged

to try and keep out the predators with varying degrees of success. The takeover of Watney Mann by Grand Metropolitan Hotels alerted the Beerage that even the large conglomerates were targets. In their haste to boost their balance sheets, many rural pubs were delicensed and sold off, often at ridiculous low prices. The demise of the rural pub had started, and the rush to cash in on the eating-out revolution attracted a new type of publican, more interested in providing fancy food than upholding the traditions that British pubs were famous for throughout the world. Tony Hackett, though being a leader at the birth of pub catering, holds strong views on the transformation of pubs to nosh joints.

rural Minnesota in the 40's, 50's, and 60's.

[Medical Records and the Law, William H. Roach Jr.](#) , 2008, 0763764922, 9780763764920. Published in conjunction with the American Health Information Management Association (AHIMA), Medical Records and the Law is the ideal text for programs in HIM as well as a valuable reference for health and legal professionals. The Fourth Edition features an expanded discussion of state laws affecting the use and disclosure of health information and the substantial changes brought about by HIPAA and the growth of electronic health record systems. It also discusses the highly complex interplay of federal and state laws as well as the challenging area of how patient information may be used in connection with medical research involving human subjects.

[Wonder Years: The Ten Best Stories from a Decade Past, Peter McNamara](#) , 2003, 0958658374, 9780958658379.

Collection of Australian science fiction stories published in the 1990s. Includes urban fantasy, and tales of myths, dreams and warriors of the future. Includes the works of ten established Australian writers and two newcomers to the genre. Contributors include Russell Blackford, Simon Brown, Leanne Frahm, Margo Lanagan, Lucy Sussex, and Terry Dowling. Includes appendix. McNamara has previously co-edited 'Alien Shores' and 'Forever Shores'.

[Es Tu Futuro, Verne Wheelwright Ph. D.](#) , 2012, 097883089X, 9780978830892. Ahora, un futurista profesional te muestra paso a paso como puedes no solo anticipar tu futuro sino tambien como explorar futuros alternativos y disenar el futuro que tu quieres. Aprenderas a usar los mismos metodos que han utilizado las grandes corporaciones de manera exitosa durante decadas. Encontraras en sus paginas un sistema completo de herramientas y metodos descritos con detalle, paso por paso, todos disenados para ser aplicados por los individuos a sus propias vidas. De lectura accesible y agil, el texto esta apoyado con mas de cien diagramas, tablas y ejemplos. Aprenderas a: -identificar y entender las fuerzas y tendencias que estan - conformando a tu vida. -desarrollar escenarios acerca de tus futuros potenciales. -disenar una vision de tu futuro. -Crear estrategias y un Plan para alcanzar tu vision de tu futuro. -anticipar y prepararte para futuros inesperados - De igual manera, aprenderas metodos de los futuristas que puedes utilizar para el resto de tu vida. Una vez que los has aprendido y practicado seras capaz de aplicarlos a tu vida, tu negocio y tu carrera. Asi que... Haz de tu futuro... uno bueno!

[3D Studio Visuals: Fundamentals Using Release 3.0, Stephen J. Ethier, Christine A. Ethier](#) , 2000, 0130287911, 9780130287915. Ideal both for learners who know just the basics about computers and CAD and for those who are experts in CAD but wish to add a new dimension, 3D Studio VIZ Fundamentals blends theory and practical applications in

a hands-on, lab- and exercise-intensive tutorial. It provides a basic introduction to computer animation, an overview of 3D Studio VIZ, preparation for 3D modeling, 3D modeling, presentation, and practical applications that reflect today's animated world, e.g., in films, advertisements, and gaming environments. Many of the features in VIZ have been modeled after AutoCAD's interface, allowing for faster learning and application. An appendix explains the features and procedure to bring AutoCAD files into 3D Studio VIZ. For those who use AutoCAD, and those whose work involves computer graphics, technical illustrations, architectural design and drafting, and animation.

[A Celebration of Wattle: Australia's National Emblem, Maria Hitchcock](#) , 2012, 1921719567, 9781921719561. The Wattle is a type of Acacia found in Australia. The Acacia pycnantha (Golden Wattle) is Australia's floral emblem. It is a tree which flowers in late winter and spring, producing a mass of fragrant, fluffy, golden flowers. To the people of Australia, the Wattle stands for "home, country, kindred, sunshine, and love - every instinct that the heart most deeply enshrines." This book is a revised edition of Wattle (AGPS, 1991). With its beautiful color illustrations, the book is a celebration of 'all things Wattle.' It includes numerous Wattle Day memories, along with a brief history of the Wattle Day Association. It also contains an anthology of poems related to the Wattle. A Celebration of Wattle: Australia's National Emblem examines the botanical battle for Australia's retention of the name Acacia. It also discusses the 'Hiroshima connection' and more. \*\*\* "A Celebration of Wattle is a treasury for botany enthusiasts and Australian patriots alike!" - Midwest Book Review, Library Bookwatch, The Botany Shelf, July 2013

[Victorian Reformation : The Fight Over Idolatry in the Church of England, 1840-1860: The Fight Over Idolatry in the Church of England, 1840-1860, University of London Dominic Janes Lecturer in Art History Birkbeck College](#) , 2009, 0199702837, 9780199702831. In early Victorian England there was intense interest in understanding the early Church as an inspiration for contemporary sanctity. This was manifested in a surge in archaeological inquiry and also in the construction of new churches using medieval models. Some Anglicans began to use a much more complicated form of

ritual involving vestments, candles, and incense. This "Anglo-Catholic" movement was vehemently opposed by evangelicals and dissenters, who saw this as the vanguard of full-blown "popery." The disputed buildings, objects, and art works were regarded by one side as idolatrous and by the other as sacred and beautiful expressions of devotion. Dominic Janes seeks to understand the fierce passions that were unleashed by the contended practices and artifacts - passions that found expression in litigation, in rowdy demonstrations, and even in physical violence. During this period, Janes observes, the wider culture was preoccupied with the idea of pollution caused by improper sexuality. The Anglo-Catholics had formulated a spiritual ethic that linked goodness and beauty. Their opponents saw this visual worship as dangerously sensual. In effect, this sacred material culture was seen as a sexual fetish. The origins of this understanding, Janes shows, lay in radical circles, often in the context of the production of anti-Catholic pornography which titillated with the contemplation of images of licentious priests, nuns, and monks.

[The Films of Alfred Hitchcock, David Sterritt](#) , 1993, 0521398142, 9780521398145. The introduction gives an overview of Hitchcock's long career, with special attention to the varied influences on his work; themes that run through many of his films, from the "transference of guilt," to the connection between knowledge and danger; the overlooked importance of his presence within his films, including his famous cameo appearances and characters who represent him within the story; his fascination with performance and the ambiguities of illusion and reality; the question of viewing him and his work through the auteur theory; and other issues. Also discussed is the relationship between Hitchcock as a serious, even tormented artist and Hitchcock as a magician with a weakness for cinematic practical jokes. Six chapters then provide in-depth examinations of key films: Blackmail, his first talkie; Shadow of a Doubt, one of his personal favorites; The Wrong Man, which questions the nature of guilt and innocence; Vertigo, arguably his most profound work; Psycho, his most

savage look at the nature of evil; and *The Birds*, his last masterpiece and one of his most widely misunderstood works. David Sterritt is film critic at *The Christian Science Monitor* and Adjunct Assistant Professor in the Graduate Film Division of Columbia University.

[Everybody Cosplay!](#), 2007, 1413903657, 9781413903652. Visit an anime convention anywhere in the North America and you'll see them everywhere: fans dressed up in the costumes of their favorite characters, acting out their roles and assuming their personalities. In Japan, where cosplay was born, the scene is even hotter, with professional cosplayers modeling at events and selling their photo albums. Renowned cosplayer and beloved *Newtype USA* columnist Jan Kurotaki has been a fixture in the circuit for almost 10 years. Collected here are her photos and columns from *Newtype USA*, along with exclusive photos never published in the pages of the magazine. A true collector's dream!

[Positive Psychology: The Science of Happiness and Flourishing, William Compton, Edward Hoffman](#), 2012, 1111834121, 9781111834128. This brief paperback presents in-depth coverage of the relatively new area of positive psychology. Topically organized, it looks at how positive psychology relates to stresses and health within such traditional research areas as developmental, clinical, personality, motivational, social, and behavioral psychology. The text is a perfect supplement for Introductory Psychology, Psychology of Adjustment, Health Psychology, or Social Psychology courses. It can also be used as a primary text in upper-level courses, such as the Psychology of Happiness. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

[The Law of Targeting, William H. Boothby](#) , 2012, 019163994X, 9780191639944. Targeting is the primary method for securing strategic objectives in an armed conflict. Failure to comply with the law of targeting jeopardizes the achievement of those aims. It is therefore essential that all those involved in or studying issues surrounding targeting have an accurate and complete understanding of this area of law. This book offers the definitive and comprehensive statement of all aspects of the law of targeting. It is a 'one-stop shop' that answers all relevant questions in depth. It has been written in an open, accessible yet comprehensive style, and addresses both matters of established law and issues of topical controversy. The text explains the meanings of such terms as 'civilian', 'combatant', and 'military objective'. Chapters are devoted to the core targeting principles of distinction, discrimination, and proportionality, as well as to the relationship between targeting and the protection of the environment and of objects and persons entitled to special protection. New technologies are also covered, with chapters looking at attacks using unmanned platforms and a discussion of the issues arising from cyber warfare. The book also examines recent controversies and perceived ambiguities in the rules governing targeting, including the use of human shields, the level of care required in a bombing campaign, and the difficulties involved in determining whether someone is directly participating in hostilities. This book will be invaluable to all working in this contentious area of law.

With C# Weekend Crash Course, you can get up to speed on designing and developing .NET applications with this powerful programming language -- in a single weekend!Open the book on Friday evening and by Sunday afternoon -- after completing 30 fast, focused lessons -- you will have mastered the skills necessary to begin creating applications with Microsoft's hot, new C# language. In just one weekend, expert developer Stephen Davis leads you into the new world of Microsoft.NET, and enables them to create robust .NET applications. Starting with C# basics, Stephen

teaches you what you need to know to begin creating C# applications quickly, and easily. This book is a must have for any developer building applications on Microsoft's new .NET Framework.

[Iigo Manglano-Ovalle: Blinking Out of Existence, Iigo Manglano-Ovalle](#) , 2007, 0979236401, 9780979236402. The Chicago-based artist Inigo Manglano-Ovalle is immersed in an ongoing, critical investigation of the diverse conditions, systems and histories that define and describe our existence. He digs deep, often collaborating with specialists in such fields as engineering, architecture, genomics or climatology to produce engaging art objects, videos and installations that take on subjects like identity, ethics, aesthetics, climate and other social and political systems. This concise clothbound catalogue contains blue and red acetate inserts to recall the tinted windows at his recent Rochester Art Center exhibition, as well as an in-depth interview by Yasmil Raymond of the Walker Art Center, Minneapolis. Inigo Manglano-Ovalle has had solo exhibitions at The Art Institute of Chicago and the Museum of Contemporary Art, Chicago, and has participated in such important group exhibitions as the 2000 Whitney Biennial, the Guggenheim Museum's 2002 "Moving Pictures" and 2007's Documenta 12 in Kassel, Germany. He was featured on the PBS series "Art 21" in the fall of 2007.

[Hungry as the Sea, Wilbur Smith](#) , 2011, 1429993219, 9781429993210. Wilbur Smith sets his vividly realistic novels on the razor's edge between human courage and nature's wrath. In *Hungry As The Sea*, this master storyteller takes us to the frigid South Atlantic, where one man fights for his life-- and for redemption. Nicholas Berg is steaming out of Cape Town aboard the salvage tug *Warlock*. Once Berg ruled an ocean-going empire. Now, his future has come down to a powerful boat and a daring rescue mission. One of his former ships is being lashed against the cliffs of Cape Alarm, surrounded by deadly icebergs and survivors clinging to their boats. Berg has gambled everything on reaching the *Golden Adventurer* before a competitor and a violent storm-- to win a fortune in salvage fees. But if Nick Berg succeeds, and climbs back into the international shipping game, that's when the real danger will begin...From the power of a relentless ocean to the hunger of men to survive upon her, this is a towering novel of adventure, love and the daring of the human soul.

[The Subway Diaries, Heidi Kole](#) , 2009, . "Heidi leads you on a guided tour through a subterranean world peopled by creative artists and sidewalk visionaries. Down winding tunnels and across gritty subway platforms, through her writing, both gritty and raw, she introduces you to an unforgettable cast of characters, not the least of whom is Heidi herself; a Renaissance woman, free spirit, and fearless adventurer in a world that millions pass through, but few know well. She takes you underground, where the music is the heartbeat of New York City. The chapters are informal, intimate diary entries, reading like a movie, jotted down at midnight after long sessions underground, so the book is a quick read, like a breathless ride on the uptown express.

[The Child's Theory of Mind, George E. Butterworth, Paul L. Harris, Alan M. Leslie, Henry M. Wellman](#) , 1991, 0198522525, 9780198522522. We all have minds of our own. The fact that we all experience our own thoughts, ideas, and imaginings, and that other people can know about them only if we choose to tell them, is taken for granted by most of us. But young children, whose understanding of everyday mental states is quite different, do not necessarily jump to the same conclusion. This volume reports the latest research and theory on this classic and important topic -- vitally important, since all social behavior depends on an awareness of others. How and when an accurate knowledge of other minds arises is the central question of this volume. This authoritative work explores the theory of mind in a wide-ranging collection, featuring discussions of imagination, false beliefs, mind and emotion, and autism. The Child's Theory of Mind is also published as two issues of the British Journal of Developmental Psychology. Researchers and teachers in psychology and child psychology will find this a stimulating and informative book, which suggests several important potential applications.

[Structures, Daniel L. Schodek, Martin Bechthold](#) , 2013, 0132559137, 9780132559133. Structures, Seventh Edition, offers single-volume coverage of all major topics in structural analysis and design. Focusing on how structures really work, the text discusses concepts from both engineering and architectural perspectives, exploring structural behavior, structural analysis, and design within a building context.

[On Intelligence . . . More or Less: A Biological Treatise on Intellectual Development, Expanded Edition, Stephen J. Ceci, Stephen J Ceci](#) , 2009, 0674029313, 9780674029316. Ceci argues that traditional conceptions of intelligence ignore the role of society in shaping intelligence and underestimate the intelligence of non-Western societies. He puts forth a "biological" framework of individual differences in intellectual development that is intended to address some of the major deficiencies of extant theories of intelligence. The focus is on alternative interpretations of phenomena that emerge when implicit assumptions of intelligence researchers are challenged.

[A Circle of Ashes, Cate Tiernan](#) , 2005, 1417685611, 9781417685615. While Daedalus schemes to use the coven's power for his own dark purposes, seventeen-year-old twins Clio and Thais seek to learn who is trying to hurt them and, in the process, discover that Thais's magick has explosive power.

[Into the Dark: 30 Years in the Ruc, Johnston Brown](#) , 2006, 0717141659, 9780717141654. Johnston Brown was hailed by Martin Dillon as "the superb investigator who was central to bringing 'Mad Dog' Adair to justice." According to Dillon, ". . . the day [Brown] publishes the story of life in the RUC, from the troubled 1970s to the 1990s, a veil will be lifted from the undercover war . . . ." Into the Dark is that story. Johnston Brown served in the RUC for nearly 30 years. Recruited into the Criminal Investigation Department (CID) only two years into his service, he quickly established himself as a detective of outstanding ability. He was to lead the investigation into the murder of solicitor Pat Finucane, and it was he

who was responsible for finally bringing Johnny Adair to book. Brown was, however, quickly to discover that he was up against another even more deadly enemy than the criminals he was pursuing: those sinister elements of RUC Special Branch who for reasons of their own were determined to thwart his success. Brown found to his cost that they would stop at nothing to do so . . . Into the Dark offers a gripping insight into life in the RUC: the day-to-day reality of policing the streets of West Belfast during the dark days of the PIRA hunger strike, and what it was like to be a detective stationed in the "killing fields" of North Belfast during the 80s. The narrative lays bare some of the key terrorist personalities, as well as those operating within the Special Branch to pervert the course of justice as a means of asserting internal control. The book is written in very clear and straightforward language and tells the story of the corruption at the heart of the RUC Special Branch during the recent troubles. Brown spent 30 years in the force, mostly as a detective in the CID branch and was responsible for bring some very important murderers to justice. His brave, honest and modest personality shines through every page.

[Jolie Blon's Bounce, James Lee Burke](#) , 2010, 1409132870, 9781409132875. Three men are present when Amanda Boudreau is raped and murdered, and small-time hustler Tee Bobby Hulin's prints are found at the crime scene. Dave Robicheaux reckons he's innocent, and Tee Bobby pleads so, then attempts suicide in his holding cell. Why? Tee Bobby is released on bail and soon after there is a second murder. When lawyer Perry LaSalle takes on the defence of Tee Bobby, Dave knows his motives are fuelled by guilt. For Tee Bobby's grandmother was seduced by Perry's grandfather, and Amanda Boudreau's death is related to events that happened long before Tee Bobby was born...

[The True Story of Florence Ballard: From Rags to Riches-- and Back to Rags, Maxine Ballard](#) , 2007, 0980057418, 9780980057416. Florence Blondie Ballard, Diane Diana Ross and Mary Wilson met and became childhood friends during the 1950s. Under the watchful eye and skilled tutelage of Milton Jenkins, the friends later became the trio The Primettes, ultimately transformed into the greatest female singing group of all time, The Supremes. In 1967, Florence Ballard left the group, and though much has been written about her life after The Supremes, the true facts of her story have never surfaced --until now. Maxine Precious Ballard Jenkins, the sister of Florence Ballard, has written the true account of Florence Ballard's life, including the reasons behind her leaving the group and the turn her life took in later years. The book also helps to dispel many of the rumors surrounding Florence Ballard's death. Your view of Florence Ballard and her

life will be dramatically reversed after reading this book. --Back cover.

[Organic Chemistry: A Brief Survey of Concepts and Applications, Philip S. Bailey, Christina A. Bailey](#) , 2000, 0130179698, 9780130179692. For brief, one-term/semester undergraduate-level courses in Basic Organic Chemistry, generally taken by allied health, nutrition and/or physical therapy majors. Written by two of the key players in chemical education. Drawing on the authors' 25 years of teaching experience, this text has been specifically designed for the unique needs and interests of students taking a short course in organic chemistry. It introduces carefully selected core concepts of organic chemistry, brings them together with unifying principles, and relates them to applications of interest to students and society in general. A "Getting Involved" feature at the end of most sections provides experiential learning.

[The Making of Alexander, Robin Lane Fox](#) , 2004, 0951139215, 9780951139219. "The Making of Alexander" is a unique mixture of high-class, hilarious text and stunning photography of a great film in process. Popular and provocative, it gives moviegoers a brilliant portrait of the talent the film brought together. Fifteen years in planning, the "Alexander" movie is the major film epic of the decade, with a production budget of \$160 million and in the United States alone, a Warner Bros. publicity campaign of \$35 million. Three-time Academy Award-winning director Oliver Stone has led a star cast in a spellbinding movie, premiering in the United States on November 24, 2004. "Alexander" sets new standards with unprecedented drama, history and emotional power. This book, endorsed by the studios Intermedia and Warner Bros., is the only official "inside guide" to the film. The author enjoyed unique access as the film's historical adviser for two and a half years and worked very closely with the director, the script and the stars. He also served as a cavalryman on location, riding with the stars in the film's spectacular battles and charges. Robin Lane Fox is the world's best-selling historian of Alexander. A professor at Oxford University, his own historical biography of Alexander has now sold more than a million copies and was the major source for the makers of the film. With Warner Bros.' backing, "The Making of Alexander" is planned to be publicized on the Warner Bros. "Alexander" web sites and interactive material, for which Robin Lane Fox is a consultant and historical writer.

[Locke's Metaphysics, Matthew Stuart](#) , 2013, 0199645116, 9780199645114. Though John Locke set out to write a book that would resolve questions about the origin and scope of human knowledge, his Essay Concerning Human Understanding is also a profound contribution to metaphysics, full of arguments about the fundamental features of bodies, the notions of essence and kind, the individuation of material objects, personal identity, the nature and scope of volition, freedom of action, freedom of will, and the relationship between matter and mind. Matthew Stuart examines a broad range of these arguments, and explores the relationships between them. He offers fresh interpretations of such familiar material as the distinction between primary and secondary qualities, and Locke's account of personal identity; and he also takes us deeper into less familiar territory, including Locke's case against materialism and his philosophy of

action. Locke's *Metaphysics* shows Locke to be a more consistent, systematic and interesting metaphysician than is generally appreciated. It defends him against charges of muddling the definition of 'quality', of waffling between two conceptions of secondary qualities, and of vacillating in his commitment to mechanism. It shows how his rejection of essentialism leads him to embrace relativism about identity, and that his relativism about identity is the key to defending his account of personal identity against several objections. Yet the picture of Locke that emerges is not always a familiar one. Stuart's account reveals that he is a philosopher who denies the existence of relations, who takes bodies to be colored only so long as we are looking at them, and who is not committed to mechanism. He shows that Locke takes persons to be three-dimensional beings whose pasts are 'gappy' rather than continuous. Finally, he shows that Locke is a volitionist who holds that we can will only our own thoughts and bodily motions, and not such episodes as lighting a candle or turning the pages of a book.

Malone](#) , 1991, 0295971290, 9780295971292. *Montana: A History Of Two Centuries* first appeared in 1976 and immediately became the standard work in its field. Fully twenty percent of the text is new or revised, incorporating the results of new research and new interpretations dealing with pre-history, Native American studies, oral history, and recent political history. In addition, the bibliography has been updated and greatly expanded, new maps have been drawn, and new photographs have been selected.

[Never Coming Back: David Raker Novel #4, Tim Weaver](#) , 2013, 0141969652, 9780141969657. *Never Coming Back* is the brilliant new missing persons case in the David Raker series by Tim Weaver. A SECRET THAT WILL CHANGE LIVES FOREVER It was supposed to be the start of a big night out. But when Emily Kane arrives at her sister Carrie's house, she finds the front door unlocked and no one inside. Dinner's cooking, the TV's on. Carrie, her husband and their two daughters are gone. When the police draw a blank, Emily asks missing persons investigator David Raker to find them. It's clear someone doesn't want the family found. But as he gets closer to the truth, Raker begins to uncover evidence of a sinister cover-up, spanning decades and costing countless lives. And worse, in trying to find Emily's missing family, he might just have made himself the next target ... Immerse yourself in *Never Coming Back*, the much-anticipated new instalment in the David Raker series from Tim Weaver, author of *Chasing the Dead*, *The Dead Tracks* and *Vanished*. Fans of Mo Hayder's *Gone* and Michael Marshall Smith's *The Straw Men* should look this way. Acclaim for Tim Weaver: 'I couldn't put it down' - Sun 'Weaver's books get better each time - tense, complex, sometimes horrific, written with flair as well as care' - Guardian 'Weaver has delivered another cracking crime thriller' - Daily Mail Tim Weaver was born in 1977. After working in magazine journalism, writing about films, TV, sport, games and technology for seventeen years,

he is now a full time novelist. He is married with a young daughter, and lives near Bath. Never Coming Back is Tim's fourth David Raker novel.

[Invasion: The Dutch in Wartime, Survivors Remember, , Tom Bijvoet](#) , 2011, 0986830801, 9780986830808. 'The Dutch in Wartime: Survivors Remember' is a series of books containing the wartime memories of Dutch immigrants to Canada and the USA, who survived Nazi occupation of the Netherlands from 1940 to 1945. Book 1, Invasion, covers the five days in May 1940 when the Dutch Army fought an unequal battle with the vastly more numerous German forces. The authors of the stories in this book remember the invading German troops marching through their streets, catfights between German and Dutch planes above their cities, civilian casualties of war and the devastating bombing of the city of Rotterdam in which 800 people lost their lives and 80,000 lost their homes. Designed and written to be easily accessible to readers of all ages and backgrounds, these books contain important stories about the devastating effects of war and occupation on a civilian population.

Their goal was to find a place where many different animals lived, so they could mainly study the reasons why they didn't get along with those who looked different. They wanted to find a way to straighten out humans. So they set out to study animals until they came across a clumsy, slow, seldom picked on Panda named Sebastian who changes their plans forever. They quickly find out they didn't need to experiment when Sebastian saves the jungle and his parents from a mysterious group of hidden animals called the Unknowns. The Unknowns were feared hugely simply because they scared away the mighty tigers out of the jungle. Sebastian's journey begins when the Unknowns kidnap his parents and the mighty Gorilla Benjamin. Sebastian's goes on a long, adventurous journey to find them. Sebastian's has to go through the Dangerous Raccoons tribe, the evil Squirrels, and Martin's Cave of deadly traps. He also has to go through a group of crazy Monkeys and all of the animals in the jungle who want to stop Sebastian on his quest, but as he continues, many animals begin to believe in Sebastian and join him on his quest to find his loved ones and bring love and peace throughout the jungle.

[The Choice for Europe: Social Purpose and State Power from Messina to Maastricht, Andrew Moravcsik](#) , 1998, 0801435099, 9780801435096. The creation of the European Community ranks among the most extraordinary achievements in modern world politics. Observers disagree, however, about the reasons why European governments have chosen to coordinate core economic policies and surrender sovereign prerogatives. In this eagerly awaited book, Andrew Moravcsik analyzes the history of the region's movement toward economic and political union. Do these unifying steps demonstrate the preeminence of national security concerns, the power of federalist ideals, the skill of political entrepreneurs like Jean Monnet and Jacques Delors, or the triumph of technocratic planning? Moravcsik rejects such

views. Economic interdependence has been, he maintains in his provocative argument, the primary force compelling these democracies to move in this surprising direction. Politicians rationally pursued national economic advantage through the exploitation of asymmetrical interdependence and the manipulation of institutional commitments. Focusing on Germany, France, and Britain, Moravcsik examines the five decisive agreements that propelled integration forward. He seeks to reintegrate the historical study of European unity with theoretical inquiry into the sources of international cooperation.

[Gasket: Design, Selection, and Testing, Daniel Czernik](#) , 1996, 007015113X, 9780070151130. Don't Blow A Gasket. . .

Pick up Daniel E. Czernik's Gasket Handbook instead and arm yourself with all the know-how you need to design dependable, environment-friendly, long-lasting, high-performance gaskets. It's the only guide to cover design, selection, performance, efficiency, reliability, and testing of every type of "static" seal gasket: chemical, o-ring, metallic, and non-metallic. You'll find all the latest ASME codes, the proposed new ASME gasket constants, and in-depth explanations of: initial seal creation; seal maintenance; stress distribution testing; gasket design and environmental conditions; gasket installation; joint and gasket design and selection; sealing enhancements; rubber gaskets; failure mode and effects analysis; o-ring seals; finite element analysis; computers and gaskets; chemical gaskets; and more.

[Lessing's Philosophy of Religion and the German Enlightenment, Toshimasa Yasukata Professor of European Intellectual History Seigakuin University](#) , 2002, 0198033109, 9780198033103. Gotthold Ephraim Lessing (1729-81) stands as a key

figure in German intellectual history, a bridge joining Luther, Leibniz, and German idealism. Despite his well-recognized importance in the history of thought, Lessing as theologian or philosopher of religion remains an enigmatic figure.

Scholars refer to the "riddle" or "mystery" of Lessing, a mystery that has proved intractable because of his reticence on the subject of the final conclusions of his intellectual project. Toshimasa Yasukata seeks to unravel this mystery. Based on intensive study of the entire corpus of Lessing's philosophical and theological writings as well as the extensive secondary literature, Yasukata's work takes us into the systematic core of Lessing's thought. From his penetrating and sophisticated analysis of Lessing's developing position on Christianity and reason, there emerges a fresh image of Lessing as a creative modern mind, who is both shaped by and gives shape to the Christian heritage. The first comprehensive study in English of Lessing's theological and philosophical thought, this book will appeal to all those interested in the history of modern theology, as well as specialists in the Enlightenment and the German romantic movement.

[You're Stepping on My Cloak and Dagger, Roger Hall](#) , 2013, 1612513719, 9781612513713. With a sharp eye and wry wit, Roger Hall recounts his experiences as an American Army officer assigned to the Office of Strategic Services (OSS) during World War II. First published in 1957 to critical and popular acclaim, his book has become a cult favorite in intelligence circles. The story follows Hall's experiences from a junior officer fleeing a tedious training assignment in Louisiana to his quirky and rigorous OSS training rituals in the United States, England, and Scotland. Quick to pick up on the skills necessary for behind-the-lines intelligence work, he became an expert instructor. But he was only reluctantly given operational duties because of his reputation as an iconoclast. In his droll story-telling style, Hall describes his first

parachute jump in support of the French resistance as a comedy of errors that terminated prematurely. His last assignment in the war zone came when William Colby appointed him section head of an operations group that made its way on foot through Sweden. Called one of the funniest and most perceptive works ever written about life in the OSS, the book includes a wealth of unforgettable personalities that Hall encountered over the years.
